

IA YMER HERMO

Senior Data & Operations Analyst

Manila, Philippines • +63 998 946 3556 • ia.hermo7@gmail.com • <https://iahermo.github.io/portfolio/>

PROFESSIONAL SUMMARY

Analytical and adaptable **Senior Data & Operations Analyst** (Individual Contributor) with 8+ years of enterprise experience across global financial institutions. Demonstrates strong self-taught technical agility, combining domain expertise in corporate loans marketing, loans review, software ticketing workflows, monthly/annual executive reporting, and automated control design. Extensive experience processing classified/sensitive operational data under strict data privacy protocols. Hands-on practitioner in leveraging **Alteryx, SQL (Oracle, MS SQL Server), Python, Power BI, and Tableau** to transform complex transactional datasets into decision-grade operational intelligence across enterprise systems (**SAP, JIRA, Software Ticketing Systems, GitHub**).

TECHNICAL STACK & CORE COMPETENCIES

- **Analytics & Automation (Self-Taught Stack):** Alteryx Analytics Workflow Design, SQL Querying (Oracle DB, MS SQL Server), Python (Data Processing & Scripting), Power BI (Data Modeling & DAX), Tableau, Advanced MS Excel (Macros/VBA, Complex Formulas, Pivot Tables).
- **Enterprise Systems & Tools:** SAP (GL & Loan Systems), Oracle Financials, Enterprise Software Ticketing Systems, JIRA (Workflow & Issue Tracking), GitHub (Version Control & Portfolio Documentation).
- **Domain & Operations Expertise:** Corporate Loans Marketing & Documentation, Loans Review Operations, Crediting Oversight, Software Ticketing & Client Request Processing, Monthly & Annual Reporting, Anomaly Detection, RCSA Control Frameworks, SLA Governance.
- **Data Protection & Governance:** Classified/Sensitive Information Processing, Strict Data Entry Standards, Data Privacy & Confidentiality Protocols, Audit Trail Governance.

PROFESSIONAL EXPERIENCE

Macquarie Group

Makati, PH

Senior Associate – Process Transformation & Controls Analytics

10/2024 – 01/2026

- **Automated Workflow & Monthly Reporting:** Self-designed and deployed Alteryx workflows, JIRA tracking routines, and targeted Oracle SQL queries that automated control checkpoints, compressing monthly reporting and reconciliation cycles by 80–100%.
- **Data Modeling & Visualization:** Developed decision-grade Power BI and Tableau dashboards to deliver monthly reporting on multi-asset transaction flows, data anomalies, and Key Risk Indicators (KRIs) to U.S.-aligned leadership.
- **Classified Data Governance & Anomaly Investigation:** Conducted granular root-cause investigations on complex process matters involving sensitive operational information; established automated audit trails and enforced strict data privacy controls for global regulatory compliance.
- **Process Mapping & SOP Documentation:** Documented end-to-end operational workflows, control checkpoints, and automated logic using JIRA and GitHub to streamline cross-border knowledge transfer and eliminate operational single-point-of-failure risks.

Land Bank of the Philippines

Manila, PH

Account Assistant – Corporate Loans & Financial Review

09/2022 – 03/2024

- **Corporate Loans Marketing, Documentation & Review:** Led corporate loans marketing initiatives, credit facility documentation reviews, and end-to-end loans review routines, processing classified institutional loan packets under strict statutory confidentiality rules.
- **Monthly & Annual Financial Reporting:** Executed balance sheet analysis, financial record verification, and data preparation for monthly and annual reporting deliverables across corporate loan portfolios to enforce statutory compliance and reporting accuracy.
- **Process Acceleration & Control Standardization:** Engineered standardized verification tracks that accelerated review turnaround by 80–100%, establishing structured checklists that reduced credit risk exposure across multi-asset loan portfolios.
- **Cross-Functional Discrepancy Remediation:** Facilitated structured walkthroughs into ledger and documentation mismatches, collaborating directly with clearing units and internal auditors to resolve validation gaps prior to official account finalization.

Security Bank Corporation

Makati, PH

Operations Specialist – Loans Review & Crediting

12/2018 – 03/2020

- **Loans Review & Crediting Operations:** Executed end-to-end loans review and crediting routines within SAP environments, validating confidential borrower documentation, credit exposure limits, and sensitive loan repayment feeds.
- **Monthly Risk Reporting & Production Monitoring:** Evaluated daily operational datasets, lending feeds, and Key Risk Indicators (KRIs) under strict data privacy protocols to compile monthly risk reporting packages for executive oversight committees.

Accenture

Mandaluyong, PH

Transaction Processing Associate - Data Processing and Ticketing

08/2016 – 05/2018

- **Software Ticketing & Data Processing:** Utilized enterprise software ticketing systems to log, track, and process high-volume client requests and non-financial datasets, maintaining 100% data entry accuracy and strict SLA compliance.
- **Classified Data Processing & Privacy Protocols:** Executed high-volume data processing for non-financial datasets, strictly adhering to enterprise data privacy, security, and confidentiality protocols for sensitive client information.

EDUCATION

Far Eastern University

Manila, PH

Bachelor of Science in Business Administration, Major in Financial Management

2012 – 2016
